HOW TO STUDY TO PASS THE HAM EXAMS

THIS IS THE BEST STRATEGY ! IT WORKS !

NEW EXTRA EXAMS BEGAN JULY-2008

DON'T USE AN OLD TEST GUIDE TO STUDY !!!!!

i.e. (Older than Feb 2008 for Extra, Feb 2007 for Gen)

NEW FREQUENCIES /Privileges Effective: FEBRUARY, 2007.

ALL VE TESTS HAVE UPDATED QUESTIONS ON THE NEW PRIVELAGES !!

Study ONLY The Test, Learn The Rest of HAM Radio LATER !

Study ONLY the CORRECT answers. Don't try to learn the theory.

MINIMIZE The Things You Need To Learn.....MEMORIZE.

FOCUS ONLY On The Test Material. Avoid other Books, Magazines etc.

DO NOT assume that just because someone is a Ham ... They know the correct answer.

CLEAR YOUR MIND FOR A DAY (Or Two)..... CRAM !

Hide The Kids ... Hide The Radios ... Take A Day Off

DON'T TRY TO SPREAD IT OUT 2 WEEKS IS MAXXX.

QUESTION POOLS

Exams are taken from a set of questions called a Question Pool.

5 different versions of exams are made from the common question pool

Exams are grouped into topic areas. Operation, Theory, Rules, Practices, SAFETY

EVERY EXAM QUESTION IS WORDED EXACTLY AS IT WAS IN THE STUDY GUIDES.

EVERY ANSWER CHOICE IS WORDED EXACTLY AS IT WAS IN THE STUDY GUIDES.

BUT !

The Answer Choices may be in different order than they were on the Study Guides.

If you retest the same day, the VEs WILL give you a different version of the Exam.

In the new version the questions are asked differently, but cover the same topics.

There is no “Easy” version, they all ask the same types of questions.

Question Pools and exams are changed every couple of years.

ONLY USE STUDY GUIDES DERIVED FROM THE CURRENT POOLS.

There May Be More Than One “VALID” Answer/Choice to a question.

The RIGHT ANSWER is the one that is MOST CORRECT.

HOW TO STUDY TO PASS THE HAM EXAMS

“THE METHOD”

Get a Set Of Colored Markers Or Just Use A Pencil.

Review and Answer The Test Questions In The Study Guide.... One At A Time

After Answering, Use the answer sheet and **Highlight The Correct Answer,**

Then Go Back And Note The Result:

Mark The Different Categories With Colored Markers (Or Whatever) In Your Book.

RANK

ACTION

- | | |
|------------------------------------|--|
| 1. Knew It | Highlight the correct answer with one color (Solved) |
| 2. Solved It (Even If A Bit Rusty) | Highlight the correct answer with a different color (Review) |
| 3. Understood But Got Wrong Answer | Highlight the correct answer with a different color (Memorize) |
| 4. Not A Clue | Need A Hint/Clue |

Rank #3 and #4 Answers Require Memorizing (Frequencies, Modes, Formulas)

Use A Mnemonic / Hint : Look For Something Unique In The Answer : Associate

Write Down Your Hint or Clue Next To The Correct Answer - Study It Often.

Caution! The Answers in the FCC exam are worded exactly as in the Study Guides

BUT !!! The Order Of Answers May Be Different.

“THE METHOD”

Now, go back and review the same questions Again.

Work on the #2, and #3 questions. Get them into a lower category

Then, work on the #4 (Not A Clue) questions:

Improve Your Odds - Eliminate Wrong Answers:

Stupid Answer

Opposite Answer

Close (Almost Correct) Answer

Look for clues in the correct answer. (i.e. Shortest, Longest, Simplest, etc...)

Write your clues down in the Study Guide **RIGHT NEXT TO THE CORRECT ANSWER**

Tackle As Many #4's As You Can (You WON'T Get 'Em All).

KEEP IT SIMPLE AVOID THE FACTS !!! MEMORIZE!!! USE YOUR CLUES!!!

DONT CHANGE YOUR METHOD ! Keep Reviewing the #3's and the #4'

CRAM THE NIGHT BEFORE ! 2- Hours

CRAM BEFORE THE EXAM ! 1- Hour MAX !

Scan The # 4 (Memory) Questions LAST read the correct answer and the clue **ALLOUD**.

COMPLETELY FILL OUT THE EXAM HEADER INFORMATION

Be Meticulous When Marking The Answer Sheet AVOID MISTAKES !!!

First Pass Only Answer The Ones That You KNOW.

DON'T Mark An Answer You Aren't Sure Of On This Pass

Second Pass... Do The Mnemonic And Association Answers. Use Your Hints/Clues

Third Pass ***RECHECK ALL ANSWERS*** - Answer EVERY question again

Find Mistakes Make "SMART" Guesses.
